CONTENTS

No. 1 (NOVEMBER, 1929)

	PAGE
Foreword by the RT. HON. LORD PASSFIELD	1
Monograph:	
1. Feeding Standards for Dairy Cows. E. T. HALNAN . .	3
Original Articles:	
2. Studies in Lactation. I. Variations in some Chemical and Physical Properties of the Milk from Individual Quarters of a Cow. E. C. V. MATTICK and H. S. HALLETT . .	35
3. Rusty Spot in Cheddar and other Cheese. I. Description of the Causative Organism. J. G. DAVIS and A. T. R. MATTICK	50
4. Control of Bovine Tuberculosis in Canada. G. HILTON .	58
5. The Organisation of Dairy Research in New Zealand. E. MARSDEN	64
Abstracts and Reviews:	
Bacteriology	75
General	75
Dairy	81
Chemistry (organic, inorganic and physical)	93
General	93
Dairy	93
Biochemistry	100
Physiology	103
Dairy Husbandry	104
Dairy Legislation	107
Practical Dairying	107
Statistics	110
Reviews	110

No. 2 (May, 1930)

Monograph: PAGE

6. Methods of Determining the Numbers of Bacteria in Milk. A. T. R. Mattick 111

Original Articles:

7. Rusty Spot in Cheddar and other Cheese. II. Factors controlling the Pigmentation of the Causative Organism. J. G. Davis and A. T. R. Mattick 136

8. Pasteurised Milk for Cheddar Cheese-making. I. A Preliminary Chemical Investigation. G. M. Moir 149

9. The Dairying Industry in Eastern Australia. S. M. Wadham 168

10. The Inheritance of Milk Yield in Ayrshire Cows. A. D. Buchanan Smith, R. J. Scott and A. B. Fowler . . 174

11. A Review of Undulant Fever. J. Mills 180

Abstracts and Reviews:

Bacteriology 185

General 185

Dairy 189

Chemistry (organic, inorganic and physical) 198

General 198

Dairy 201

Biochemistry 212

Physiology 221

Dairy Husbandry 222

Statistics 240

Patents 242
